REGISTRATION IS LIMITED
ENROLL NOW

Our Summer Program is based on Boys & Girls Clubs of America's "Triple Play" and "Project Learn" philosophies focusing on the Mind, Body, and Soul,

Mind

The "Mind" component utilizes programs designed to reinforce skills and knowledge acquired at school and help bridge the summer learning gap by providing High Yield Learning Activities, as well as acquire healthy lifestyle habits.

Body

The "Body" component promotes physical activity through fun daily fitness activities. Club Members of every age and fitness level have the chance to participate in a variety of games.

Soul

The "Soul" component encompasses social recreation activities that are critical to positive youth development. By participating in a comprehensive social recreation program, Club Members are able to develop and sustain positive relationships with others, acquire a healthy self-concept and a strong belief in their self-worth, and cope well with both positive and adverse situations.
