# BERRY GLOBAL Trash & Can Liners and Biohazard Bags

February 1, 2020, to January 31, 2022

Gordon Array brand, super hexene LLDPE, regular LLDPE, reprocessed LLDPE, HDPE liners and medical liners

VALUE COMPONENTS (Regulatory Compliance, Financial Viability, Client Participation, Staff Efficiency)		
Addressing: Financial Viability	Berry Global uses Chemical Data resin indices for price benchmarking. Chemical Data is a highly regarded, reliable and interactive chemical database.	
Addressing: Staff Efficiency Client Participation	Our team conducts site surveys where they look at all of the waste cans in a facility, along with all the different types of can liners. We then make cost saving recommendations on what are the best options for getting trash from the waste can to the dumpster.	Our Berry Brand is recognized nationwide as the leading brand in the industry. We also pack the Gordon Array brand, which is very well regarded with all HPS Members that we have worked with. Array liners have a high level of quality and industry support.
Addressing: Regulatory Compliance Financial Viability	Berry's can liners are produced using the thinnest and strongest resins available. Along with film strength, Berry can liners are produced to NIST Weights and Measures requirements.	
Addressing: Staff Efficiency Financial Viability	Essentially every time we conduct a site survey, we not only save Members money, we provide more efficient ways to manage the trash at their facilities.	We are constantly working with the GFS sales team and providing them training on providing HPS Members with the correct bags, as well as the best performing bags.
Addressing: Client Participation Regulatory Compliance	For each class of trade (Medical, Medical Associate, Senior Living, Education, and Associate), we offer a complete line of can liner products through GFS, including super hexene LLDPE, regular LLDPE, reprocessed LLDPE, HDPE liners and medical can liners.	<ul> <li>Our medical can liners meet all the D.0.T. Tear Standards, while both low- and high-density medical liners meet D.0.T. dart (puncture) standards.</li> <li>Our medical liners are available in three colors in both printed and non-printed formats.</li> </ul>
