

**CHIPPEWA VALLEY SCHOOLS
2018 BOND PROGRAM
CONSTRUCTION UPDATE
JANUARY 2021**

SAFETY & SECURITY

- The installation of the emergency alert system is complete. Formal training will take place when students are back to school in person.
- The second phase of the door hardware upgrades is nearly complete. This project includes the larger student occupied spaces such as gyms, cafeterias, and media centers.
- The interior glass along corridors at student occupied spaces is nearly complete.
- The additional access control (card swipe) location install has started. Work will be complete around the end of the school year.

OTHER PROJECTS

- The replacement of the chiller at Cherokee Elementary is on schedule. The new chiller and equipment has been installed. The contractor is working on final connections so this will be ready to start for the spring cooling season.
- The replacement of the drinking fountains with water bottle fill stations is scheduled to start in February.

2021 PROJECTS

- In December 2020, the school board approved contracts for all the planned projects for 2021. These projects include work at Cherokee, Erie, Huron, Miami, Algonquin, CV-9, CVHS, Mohegan and the Administration Complex. Work is scheduled to start this spring and be complete by the fall.
