For $20, **seniors with a current CVHS parking pass only** may purchase a permit to paint a parking spot. This will then be their reserved spot for the year. To participate parents must go to [PaySchools Central](#) to purchase a permit. Deadline for doing so is September 22. By making that purchase, parents and students agree to all of the following:

Painting must be school appropriate. The following are not allowed:

- Anything that is deemed to be violent, sexual, or vulgar.
- Anything that advertises vaping, tobacco, alcohol, or drugs.
- Anything that defames or harasses any person or group of people, promotes deviant/violent/indecent behavior, or states/suggests disloyalty to our country or school.

Anything deemed inappropriate will be painted over.

Other students will be expected to not park in these reserved spaces. If someone does park in a reserved space, the owner of the space should report the license plate number of the violating car to our main office. No other action should be taken.

Students are responsible for purchasing their own primer, paint, and painting materials. Keep in mind that this could be an expensive activity.

Parking spots may be painted on September 14, 15, 21, or 22 only. Spots may be claimed on a first come basis beginning as early as you would like on September 14. If you have purchased a permit but are unable to come on the first day, you can have a friend claim your spot for you by clearly marking it with paint.

Only spaces in the highlighted rows below are available for painting:

![Highlighted Rows](image)

Failure to meet the above expectations or painting a spot without purchasing a permit could result in loss of painted parking privileges or all parking privileges.
