Traditional face-to-face instruction (as permitted by state and local guidelines for the reopening of schools and CDC recommendations). Students will return to school with new safety guidelines and procedures in place.

If indicated, we will offer a Hybrid Learning Model that will provide students with a combination of in-person and online instruction.

CV Virtual Academy will provide families with a full-time option for remote learning. Students will receive rigorous online instruction, high standards and the same academic excellence that our in-person curriculum provides.

The start of the school will depend on Michigan’s Phased Reopening Plan. We are currently in Phase 4.

We are currently developing:
- Options for safely returning to face-to-face instruction in our school buildings
- Contingencies for providing rigorous online instruction in case of future closure of school buildings
- Opportunities for providing robust online instruction for students who are unable to return to school

We received over 6,000 responses to our parent Return to School Survey. Thank you for sharing your opinions with us. We value your input and feedback. Your responses will help guide our reopening plans for the fall.

CVS Offers New Virtual Academy

Chippewa Valley Schools is pleased to announce a new CV Virtual Academy for students in grades K-12. Beginning with the 2020-2021 school year, families will have the option to enroll in a comprehensive online program. Students will receive the same high-level of instruction and educational excellence as in-person classes. Students will receive traditional grades and be accountable for completion of coursework and attendance in the program. For students enrolled in the CV Virtual Academy we recommend that students have a parent or at-home coach to monitor progress on assignments. Families will receive an email each week with instructions on how to enroll their child in this full-time online learning option.

Thank you for taking the survey
