Just Around the Corner...for Girls 4th & 5th Grade

Girls and an important adult in their life are invited to attend...

- A maturation program to help answer questions that girls might have about their growing and changing bodies.
- The session will cover physical and emotional changes that occur in girls during puberty, including menstruation.
- A short video will be followed by a lively discussion session.

Local school districts usually present a maturation/reproductive health program for elementary students during their regular class time. *This class is not intended to replace any current reproductive health programs, which may continue as always.* The MISD is offering this class to those interested girls and their parent/guardian IN ADDITION to regular school programming.

Open to any adult in the community and any 4th and 5th-grade girl in the community.
