COLLEGE CAMPUS VISITATION

Updated: 09/04/2019

Up to five “school business” days may be granted for campus visits. These may only be used during your junior or senior years. Special permission may be granted for unusual cases.

At your visit, request a signed statement on the university/college’s letterhead, documenting the date and time of your visit. When you return to Dakota after your university/college visit, provide the documentation to the attendance office so your absence can be changed to school business.

NOTE: If the visit document is not on-file, your absence will not be documented as “school business.”
