

# Current Popular Vape Devices

## Breeze

Very popular because they are inexpensive (\$8.99)  
 Come in many different “flavors” (pumpkin spice, raspberry, lemon, etc.)  
 Type of “Pod-Mod” style of vape

## Elf Bar

Disposable nicotine vape (around \$11-\$12).  
 “Pod” style of vape.  
 Very popular right now, come in many fruit flavors (grape, lemon, sunset, malibu)

## Breeze Canna

Popular nicotine brand but now they are making THC Breeze pens.  
 Come in many different flavors and don’t smell like marijuana.  
 Commonly mistaken for nicotine vapes.  
 More expensive-around \$25 & contains 80% THC

## “White Boy Rick”-The 8<sup>th</sup>

Looks like a Juul or Breeze, but this device is used to vape THC.

Contains 1 gram of Marijuana per vape.  
 These vape devices are rechargeable.  
 “Live Resin” – therefore may smell more like marijuana plant than other THC vapes.  
 More expensive around \$25-\$30

## Rechargeable USB Batteries with Twist-on Cartridges

Cartridges can be removed and hidden in small places such as wallets and pencil cases.  
 Cost around \$18-25 each for battery alone

Gage--THC
