## Introduction

The SIP is a planning tool designed to address student achievement and system needs identified through the school's comprehensive needs assessment (CNA). Additionally, the SIP provides a method for schools to address the school improvement planning requirements of Public Act 25 of the Revised School Code and the Elementary and Secondary Education Act (ESEA) as applicable.

## Improvement Plan Assurance

## Introduction

During the 2018-2019 school year, schools will have two options for Goals and Plans. 1. Update Goals and Plans, if necessary, based on analysis of data and Program Evaluation; 2. Complete and upload the Abbreviated Goals and Plans template into ASSIST, based on analysis of data and Program Evaluation.

# School Improvement Plan 

Cheyenne Elementary School

## Overview

## Plan Name

2018-2019 Cheyenne Goals \& Plan

## Plan Description

Strategies and activities to support our academic and cultural growth.

## Goals Summary

The following is a summary of the goals encompassed in this plan. The details for each goal are available in the next section.

| $\#$ | Goal Name | Goal Details | Goal Type | Total Funding |
| :--- | :--- | :--- | :--- | :--- |
| 1 | All students will be proficient in reading | Objectives:1 <br> Strategies: 4 <br> Activities:32 | Academic | $\$ 1321$ |

| 3 | All students will follow positive behavior guidelines <br> consistently | Objectives:1 <br> Strategies:1 <br> Activities:7 | $\$ 1000$ |  |

## Goal 1: All students will be proficient in reading

## Measurable Objective 1:

$72 \%$ of All Students will demonstrate a proficiency in all Claim areas in English Language Arts by 06/30/2020 as measured by the Spring M-Step.

## Strategy 1 :

Classroom Instruction that Works (CITW) Instructional Model incorporating MTSS - All teachers will implement CITW into their instructional practice in reading to increase student engagement and learning. The framework has three components, which were selected because they focus on the key aspects of teaching and learning. All teachers will implement the non-negotiables (framework 1) consistently in all content areas. Teachers will use framework 2 \& 3 as necessary and appropraite based on need.
1.Creating the Environment for Learning:When teachers create an environment for learning, they motivate and focus student learning by helping students know what is expected of them, providing students with opportunities for regular feedback on their progress, and assuring students that they are capable of learning challenging content and skills. Activities included in this framework are Setting Objectives \& Providing Feedback, Reinforcing Effort \& Providing Recognition, and Cooperative Learning.
2. Helping Students Develop Understanding: The strategies included in this component help teachers use students' prior knowledge as scaffolding for new learning. Activities included in this framework are Non-Linguistic Representations,Cues, Questions \& Advance Organizers, Summarizing \& Notetaking, and assigning Homework \& Providing Practice.
3.Helping Students Extend and Apply Knowledge: The strategies included in this component emphasize the importance of helping students move beyond "right answer" learning to an expanded understanding and use of concepts and skills in real-world contexts. Activities included in this framework are Identifying Similarities \& Differences and and Generating \& Testing Hypotheses.

## Strategy 2:

Close and Critical Reading Skills with Guided Reading - All instructional staff will implement Close and Critical Reading skills along with Guided Reading as appropriate to grade level and content area to increase student performance in narrative and informative reading. Close and Critical Reading will be used primarily in grades $3-5$ whereas; Guided Reading will be used mainly in grades K-2. However, Critical Reading skills may be integrated in grades K-2 and Guided Reading may be used in grades 3-5 where appropriate and necessary.

## Strategy 3:

Close Reading - All instructional staff will implement Close Reading skills as incorporated in our newly adopted English language arts program, Journeys (Houghton Mifflin Harcourt). Students will participate in thoughtful analysis of both literature and informational texts to develop reading comprehension skills. Concepts will include identifying author's craft, text structures, repeated reading, modeling fluent reading, and comparing and contrasting paired texts.

## Strategy 4:

Journey's Balanced Literacy Program - In Journeys Common Core, students learn about words through instruction in vocabulary, spelling, language, and phonics.

## School Improvement Plan

Cheyenne Elementary School

Students read widely and respond in writing and discussion to the texts they read. They build deepening knowledge within domain areas. This deep knowledge and focus on comprehension and analysis aligns with the Common Core focus on students reading and producing increasingly complex literary and informational texts. The complex texts included in the
Journeys Common Core program meet the Common Core mandate that students read high-quality and grade-appropriate literary and informational texts. To support those students who are not yet successful readers, the program provides scaffolded support for struggling readers and English learners to reach the grade-level targets by year's end.
Journeys Common Core Domains and Topics spiral up the grades help students "establish a base of knowledge across a wide range of subject matter..." (CCSSI, 2010a, p. 7) that they need to meet the Common Core.

- High-quality literature, informational texts, and instructional content offer a wealth of opportunities for students to learn and master the Common Core State Standards.
- Exemplar Texts offer rich, high-quality literature and opportunities for close reading and analysis that meet the Common Core State Standards.
- Paired Selections provide opportunities for text comparison and deepen students' knowledge about the Lesson Topic.
- Your Turn performance tasks support the Standards' high expectations for speaking and writing about texts.
- Weekly grammar and writing instruction in the Student Book supports the Common Core State Standards.
- The Common Core Writing Handbook provides weekly writing support and resources.
- Common Core State Standards are shown at the point of use.
- Weekly Focus Wall shows weekly skills at a glance.

Research Cited: https://www.hmhco.com/~/media/sites/home/educators/education-topics/hmh-efficacy/journeys_cc_2014_national_research_base_k-6.pdf?la=en The Houghton Mifflin HarcourtJourneys Common Core program is a core reading program designed to meet the diverse needs of today's students, from Kindergarten through grade 6. It aligns with the Common Core State Standards, and includes the key elements of reading instruction-from learning the alphabetic principle and decoding, through comprehension of complex texts—and of writing instruction. The print and technology components, and the activities and strategies presented throughout the program, are based on current research and best practice. The Journeys Common Core program provides students with the skills they need to succeed, preparing them ultimately for the high literacy demands of college and the workplace.
The purpose of this document is to demonstrate clearly and explicitly the scientific research base for the program. The program is built around what we know about effective reading and language arts instruction-in phonemic awareness, phonics, vocabulary, fluency, reading comprehension, and writing-and what we know about how best to meet the needs of learners through assessment and differentiation. The Journeys Common Core program integrates each of these research strands into a program that research indicates will benefit students and prepare them for future demands.

Bridges blends direct instruction, structured investigation, and open exploration. The program taps into the intelligence strengths of all students by presenting material that is as linguistically, visually, and kinesthetically rich as it is mathematical powerful.
