***Math teachers require a 1½ - 2" binder for their class***

***At times your child will need a dictionary, thesaurus, and calculator for homework. It would be helpful to have these items at home for his/her convenience.***

***Each math classroom has a set of Texas Instrument calculators capable of solving problems with fractions, decimals, and exponents. You are encouraged to purchase your own calculator with these capabilities for home use. You may want to consider purchasing a graphing calculator—we have TI 73 graphing calculators in 6th grade, and TI 84 graphing calculators in 7th and 8th grade.***
