Help! I have turned off ALL notifications for each course with the exception of User Join Your Course.
I keep getting emails. It won't stop.
Does anyone know how to resolve this or why this is happening?
Thank you in advance.

go to the course page of the group; there is a notification box on the upper right-hand side with an envelope. You can select what you want. Hope this helps

I am experiencing the same, especially with this group. I've gone to general settings and group specific and turned everything off and I am STILL getting notifications.
